INDEX TO VOLUME 45

ARTICLES AND SPECIAL FEATURES

A Deductive-Monological Model of Probabilistic Explanation. PETER RAILTON 206

A Matter of Individuality. DAVID L. HULL 335

An Ideal Model for the Growth of Knowledge in Research Programs. AHARON KANTOROVICH . . 250

A Note on Jeffrey Conditionalization. HARTRY FIELD 361

A Philosophical Explanation of the Explanatory Functions of Ergodic Theory. PAUL M. QUAY 47

A Query on Entrenchment (Discussion). RICHARD CREATH 474

A Reexamination of Causal Irregularity (Discussion). STEVEN LAUWERS 471

A Theory of Conclusions. RAYMOND DACEY 563

Beliefs and Subdoxastic States. STEPHEN P. STICH 499

Dimensionally Invariant Numerical Laws Correspond to Meaningful Qualitative Relations. R. DUNCAN LUCE 1

Discovery and Justification. CARL R. KORDIG 110

Does Quantum Mechanics Disprove the Principle of the Identity of Indiscernibles. (Discussion). R. L. BARNETTE. 466

Dretske on Laws of Nature (Discussion). ILKKA NIINILUOTO 431

'Evolution'. ROBERT N. BRANDON. 96

Gibson's Theory of Perception: A Case of Hasty Epistemologizing. EDWARD S. REED AND REBECCA K. JONES 519

Idealizations and Approximations in Physics (Discussion). ROBERT JOHN SCHWARTZ 595

In Defense of a Probabilistic Theory of Causality (Discussion). DEBORAH A. ROSEN 604

(c) Instances, the Relevance Criterion, and the Paradoxes of Confirmation. PHILLIP J. RODY . . . 289

Is Signal Synchrony Independent of Transport Synchrony? (Discussion). BRIAN ELLIS 309

Lavosier's Slow Burn (Discussion). MICHAEL E. LEVIN AND MARGARITA R. LEVIN 626

Masking and Causal Relatedness: An Elucidation (Discussion). KENNETH SAYRE 633

Methodological Individualism and Social Explanation. RICHARD W. MILLER 387

Micro-Particles and Picturability: A Reply (Discussion). STEPHEN J. NOREN 484

Musgrave's "Appraisals and Advice" (Discussion). HUSAIN SARKAR 478

On a Matter of Principle (Discussion). G. SCHLESINGER 312

On a Weak Extensive Measurement. HANS COLONIUS 303

On Explanations in Physics: Sketch of an Alternative to Hempel's Account of the Explanation of Laws (Discussion). JON DORLING . . . 136

On the Alleged Extensionality of "Causal Explanatory Contexts" (Discussion), CINDY STERN . . . 614

On the Empirical Significance of Pure Determinism (Discussion). ANDY KUKLA 141

On Transmitted Information as a Measure of Explanatory Power. JOSEPH F. HANNA 531

Philosophical Aspects of the Group Selection Controversy. JOHN CASSIDY 575

Quinn on Duhem: An Emendation (Discussion). NANCY TUANA . . 456

Realism and Intensional Reference (Discussion). BRENDAN P. MINOGUE 445

Reduction by Molecular Genetics.

WILLIAM K. GOOSENS 73
Rejoinder to Tuana (Discussion). PHILIP L. QUINN 463
Relativistic Mechanics and Electrodynamics Without One-Way Velocity Assumptions. CARLO GIANNONI 17
Reply to Niiniluoto (Discussion). FRED I. DRETSKE 440
Sayre's Statistical Model of Causal Relations (Discussion). DOUGLAS SHRADER, JR. 630
Solutions to the Paradoxes of Confirmation, Goodman's Paradox, and Two New Theories of Confirmation (Discussion). LIN CHAO-TIEN 415
Some Doubts About "Turing Machine Arguments" (Discussion). JAMES D. HEFFERNAN 638
Statistical Dogma and the Logic of Significance Testing (Discussion). STEPHEN SPIELMAN 120
Strong Scientific Theories. JOHN HENRY HARRIS 182
Supervenient Bridge Laws. TERENCE HORGAN 227
Tarski's Definition of Truth and the Correspondence Theory (Discussion). HERBERT KEUTH 420
Theoretical Simplicity and Defeasibility. EVAN FALES 273
The Supervenience of Biological Concepts. ALEXANDER ROSENBERG 368
The Universality of Laws. JOHN EARMAN 173
Two Flagpoles are More Paradoxical Than One (Discussion). CLARK GLYMOUR 118
Traces of Things Past. JOHN HEIL 60
